Front-End development track, Udacity
APRIL 2021

Front-End development, freecodecamp
MAY 2021

Experience

Front-End developer, Ratio digital, Moscow
JANUARY 2022 - MARCH 2022

Here I will start practising web development technologies like SWP frameworks. I'm really glad to attend this learning course. And after graduation, if we pass the examinations as well, we will work in this Company.

Front-End developer, IT-park, Yangiyer city
AUGUST 2021 - DECEMBER 2021

It was the best experience, teaching students to code, the first you will refresh your knowledge about programming, the second is you will have to seek the simplest way to explain what is programming actually is, so I'm really excited about that experience thanks a lot to IT park for this opportunity.

Junior React JS developer, IT Prosto, Moscow
APRIL 2022 - CURRENTLY

I started working as Junior React JS developer.
My responsibility is creating new sites and optimizing existing ones. I fixed several bugs and add a feature to a website. It was nice experience. And now I'm given to create a marketplace fron-end side.
